^{*1} IEC60825-1 Ed:2.0:2007 / FDA CDRH 21 CFR Part 1040.10 and 11 *2 Average conditions: Slight haze, visibility about 20km (12 miles), sunny periods, weak scintillation. *3 With Kodak Gray Card White Side (90% reflective). When brightness on measured surface is 30,000 lx. or less. Reflectorless range/accuracy may vary according to measuring objects, observation situations and environmental conditions. *4 When the measuring beam's incidence angle is within 30° in relation to the reflective sheet target. *5 Measuring range in temperatures of -30 to -20°C (-22 to -4°F) with Low Temperature models and 50 to 60°C (122 to 140°F) with High Temperature models: RS90N-K: 1.3 to 300m (4.3 to 980ft.), RS50N-K: 1.3 to 180m (4.3 to 590ft.), RS10N-K: 1.3 to 60m (4.3 to 190ft.) *6 Good conditions: No haze, visibility about 40km (25 miles), overcast, no scintillation. *7 Typical, under good conditions. Reflectorless measurement time may vary according to measuring objects, observation situations and environmental conditions. *8 Control panel location may vary depending on region or model. *9 Usage approval of Bluetooth wireless technology varies according to country. Please consult your local office or representative in advance. *10 No obstacles, few vehicles or sources of radio emissions/interference in the near vicinity of the instrument, no rain. *11 The laser-pointer and the quide light do not work simultaneously. *12 Low Temperature models:-30 to 50 °C (-22 to 122°F) and High Temperature models:-20 to 60°C (-4 to 140°F, No direct sunlight)

Standard Accessories

●CX main unit ●Battery (BDC70) ●Battery charger (CDC68) ●Power Cable (EDC113) ●Lens cap ●Lens hood ●Tool pouch ●Screwdriver ●Lens brush ●Adjusting pin x2 ●Cleaning cloth ●Operation manual ●USB memory key ●Laser caution sign-board •Carrying case •Carrying strap

SOKKIA

CX Series

Reflectorless Total Stations

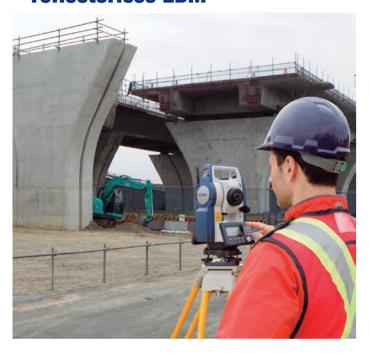

Tradition Meets Innovation

- **■** LongLink[™] data communications*
- **■** Advanced angle measurement systems
- **■** Super-long battery life
- **■** Waterproof, rugged, and operator friendly

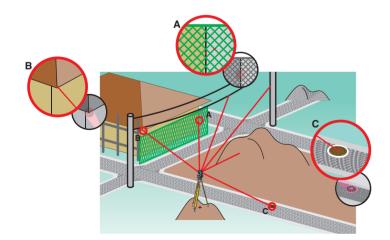

The CX maintains SOKKIA's tradition for accuracy and quality while setting new standards in total stations.

ERED-tech technology reflectorless EDM

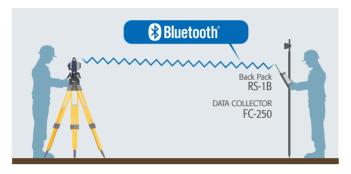

- Fast distance measurement of 0.9s regardless of object.
- SOKKIA traditional pinpoint precision in reflectorless distance
- Reflectorless operation from 30cm to 500m.
- Coaxial distance measurement and laser-pointer with same light source.
- Ensures accuracy even with reflective sheets.

The ultra-narrow laser beam can measure precisely walls, corners, manholes on the road surface, even chain-link fences and tree branches

■LongLink Data Communication*1

- The CX series of total stations features Bluetooth Class1*1 wireless technology for reliable data communications up to 300m*2.
- All CX data is instantly available at the Bluetooth-equipped controller.
- Eliminate the frustration of hand-signals and errors on all mid-range layout, staking, and other jobs.
- *2 No obstacles, few vehicles or sources of radio emissions/interference in the near vicinity of

■Advanced Angle Measurement System

- . CX features SOKKIA's original absolute encoders that provide long-term reliability in any job site condition. Dual-axis compensator ensures stable measurements even when setup on uneven terrain.
- · Sokkia's traditional motion clamp and tangent screw are employed to ensurestable angle measurement.
- CX101 and CX102 feature groundbreaking IACS (Independent Angle Calibration System) technology for extremely reliable angle measurement.

■Unprecedented Battery Life 36 Hours!

- The CX single battery can last up to 36 hours.*
- · Greatly reduces likelihood of low power during any full-days wor
- Eliminates the need for nightly recharging or carrying extra batteries.

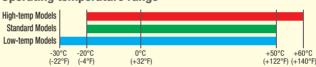

*Operating time will vary depending upon environmental conditions and CX activity.

■Waterproof, rugged, and operator friendly

- IP66 dustproof / waterproof rating.
- . Metal chassis and heavy duty handle add ruggedness.
- Standard usage temperature range -20° to +50°C. Low temperature models can be used as low as -30°* and high temperature models up to 60°C.*
- * Low and High temperature models available as options.

Operating temperature range

- · Environmentally protected USB port provides added security, as well as added convenience and data storage and transfer.
- One-touch star key [★] offers instant access to functions.
- · Conveniently located "trigger" key lets you take a series of measurements with the push of a button without taking your eye off the telescope.
- · Control panel features large 10-key pad with LCD that provides optimum viewing and convenience.*
- *Control panel location may vary depending on region or model.
- · Green/red telescope guide light enhances work efficiency in a range up to 150m.
